

Ayushi Nema

Analyst / Software Engineer

SUMMARY

I have completed my btech in computer science engineering with an aggregate of 8.90 CPI. Along with my degree, I completed working of Arduino and develop a project and also learnt about IOT based project which has helped me develop my final year project called Drowsiness detection system. During that time I discovered that I'm a team player.

KEY SKILLS

- C
- Bootstrap
- Arduino
- Team player
- Leadership

9340416880

EXPERIENCE

Analyst / software Engineering

CAPGEMINI - Mumbai

(July 2022 – Present)

- Undergoing POS training

(April 2022 – June 2022)

- COTS package training completed

Under this training we have learnt POS, WMS, OMS and Oracle database

Workshop on Ethical Hacking

2020

BIT DURG (C.G)

- Provide information Security advice and guidance given about hacking

Innovation 4U

2019

- Worked in IOT department

Observed the working on Arduino and developed a report on the same

Also made a project on Sensor, Bluetooth and Control device like Traffic signal, Bluetooth control doorlock and LCD calculator

Jayaswal Neco Industry

2019

Raipur (C.G)

- Observed working of control system for various department

Workshop on Bootstrap

2018

- Basic command of HTML tag, concept of CSS and design a webpage

EDUCATION

BTECH

(2017-2021)

Shri Shankaracharya Group of Institutions

Specialization - Computer Science and Engineering

HSC

(2004-2017)

HAPPY PUBLIC SCHOOL, Bhilai (C.G)

CERTIFICATIONS

- Participated in **5th National Engineering Olympiad** (2021)
- Data structure and algorithms Bootcamp (June 2020) - **Udemy**
- Participated in **Hackthon**, Samvid (2020)
- Participated in **Blind Coding**, Samvid (2018)
